**TO:** Board of Supervisors

**FROM:** Jim Berg, Engineering Equipment Manager JB

**VIA:** Glen L. Priddy, Deputy County Engineer - Engineering Services GLP m nk

**DATE:** February 7, 2006

**SUBJECT:** Request to Authorize the Surplus and Sale of Various Equipment from the Public Works Fleet

## Recommendation

It is our recommendation that your Honorable Board authorize the surplus and sale of the following vehicles and equipment, from the Public Works fleet:

- |            |       |                    |
|------------|-------|--------------------|
| 1. 85-0997 | Crane | Little Giant, 1987 |
| 2. BU-4    | Bus   | National/Ford 1985 |
| 3. BU-8    | Bus   | National/Ford 1988 |

## Discussion

This crane is obsolete because, in addition to being 19 years old, new OSHA crane rules require a special license to operate it. It is not practical for County employees to maintain such a license. The buses are now surplus because the County now contracts with the Regional Transit Authority for the transit services that were previously provided with the use of these buses. Each of these three pieces of equipment was already approved for replacement.

## Other Agency Involvement

No other agencies are involved in the replacement of this equipment.

## Financial Considerations

These vehicles and equipment will be disposed of at public auction and proceeds from the sale will be returned to the Public Works Internal Service Fund.

B-21  
128

## **Results**

Approval of the recommended action will allow the subject equipment to be sold at auction. This will result in a better governed community by disposing of equipment that is no longer cost effective to own.
